WORK EXPERIENCE

CORE studio at Thornton Tomasetti | New York, New York

Computational Designer | July 2025 - Present

- Contributed to over ten large-scale, complex projects across the commercial, sports, aviation, and cultural sectors, including supertall skyscrapers, international airports, and major league sports venues, leveraging advanced computational and BIM methodologies.
- Developed a comprehensive technical training series for the firm, including creating example resources, conducting hybrid teaching sessions, and holding bi-weekly office hours for the ongoing adoption of diverse computational workflows.
- Spearheading LinkedIn marketing strategy and content creation for AECTech.

Kohn Pedersen Fox Associates PC | New York, New York

Computational Design Intern | June 2024 - August 2024

- Developed custom Grasshopper components using GhPython and C# for sorting collinear points, edges, and planes based on normals, axes, and vectors. Enhanced programming skills through C# training with the Computation Team.
- Designed facades and frit patterns for the Cloud project using Grasshopper's Image Sampler and created attractor-based triangular roof patterning for the Jeddah Marina project.
- Conducted beta testing for KPF's Grasshopper assessment and alpha testing for Grasshopper 2.0.

Chicago Transit Authority | Chicago, Illinois

Engineering and Architecture Intern | January 2023 - April 2023

- Contributed to the Clark/Lake Station Redevelopment project, collaborating with Illinois Tech and CTA teams to ensure design plans met requirements and improved connectivity with the upcoming Google Headquarters in Chicago.
- Participated in site visits and analyses for future projects, focusing on the Red Line Extension and working with the CTA team to align with project objectives.

PALMA | Chicago, Illinois

Architectural Intern | August 2022 – December 2022

- Designed restroom layouts and plumbing for Level 8 of East and West Towers in R3 Towers, Fort Lauderdale.
- Researched, designed, and modeled Cabanas on Level 8 and developed diagrams for the World Sports City Confidential Project.

Gensler | Chicago, Illinois

Architectural Intern | June 2022 – August 2022

- Developed Diagrams, and 3D-Models for five confidential projects in Schematic and Design Development Stages.
- Collaborated on North Central Region Intern Research Project – The Next Industrial Frontier relating to Supply Chain Management.

EDUCATION

Carnegie Mellon University | Pittsburgh, Pennsylvania

Master of Science in Computational Design | August 2023 - May 2025

Awards: Autodesk ACADIA BIPOC Student Scholarship (2023), CMU Merit Scholarship (2023-2025)

Illinois Institute of Technology | Chicago, Illinois

Master of Engineering in Construction Engineering and Management | May 2023

Bachelor of Architecture | May 2023 | Cum Laude

Specializations: Digital Design, Architectural History and Theory

Leadership: NOMASiit (Vice-President, NOMAScape Director), iitAIAS (Computational Design Lab Chair, FORUM Chicago Partnership Director)

Awards: IIT Dean's List (2018-2023), IIT International Student Scholarship (2018-2023), I-NOMA Scholarship (2020)

SKILLS

Drafting/Modeling: Revit, Dynamo, SketchUp, Rhino3D, Grasshopper/2.0, Maya, Blender, AutoCAD, Houdini, OpenStudio, ShapeDiver

Programming: Python, Java, JavaScript, Kotlin, Arduino, C, C#, HTML/CSS, Bootstrap, Git, RAPID, R, Bash, OpenCV

Presentation: Photoshop, Illustrator, InDesign, Figma, Sketch, WordPress, Microsoft Office, Miro, Google Suite

3D Visualization/Video Editing: Enscape, 3DS Max, V-Ray, Unity, Unreal Engine, Lumion, Twinmotion, Premiere Pro, Cinema 4D

Analysis & Engineering: RS Means Data, Bluebeam Revu, ETABS, Primavera P6, Tekla, SAP2000, Bentley Infrastructures, RAM, Solibri, 360 Glue
